Issue : Principal / institutions not relieving the faculty.

Sir / Madam

It may please be recalled that faculty module is available on PCI portal containing details of teaching faculty of institutions duly certified by the Principal.

It has come to the notice of the PCI that in some cases, teaching faculty has resigned from the institution but they are not being relieved by the Principal. As a result the said faculty though has joined the other institution is not able to update his / her details in the faculty module of joining institution and are still reflected in old institution, thereby not giving true picture of teaching staff position. Since the academic session is over, all concerned are requested to -

- update the teaching staff position in faculty module by relieving the teaching faculty who is no more working with the institution and adding the teaching faculty details who have joined in place of relieved position.
- update the faculty module on urgent basis as availability of teaching staff is one of the crucial parameters for deciding the approval under the Pharmacy Act, 1948.

This is for strict compliance.

Yours faithfully

(ARCHANA MUDGAL)
Registrar-cum-Secretary
